Encouraging to Farmers

Eugene Meyer, Jr., director of the War Finance Corporation has made his special report to the president on the conditions of agriculture in the west. He reports the farmers and cattle men in better shape and asks that his corporation be continued until next January. He investigated the Co-operative Marketing Associa tions of many States as being on sound basis and properly managed. He says:

"We have reached the point where the right of the Co-op erative Marketing organizations to carry the products of their members for orderly marketing, until the consumer is ready to take them, must be organized and the necessary financing machinery provided I, therefore, recommend that the need for the orderly marketing of our agricultural products in a more gradual way and over a longer peroi l of time be frankly recognized that existing banking laws and regulations be adjusted with this end in view; and that a rediscount facility be estab lished to make it possible at all times for cooperative market ing organizations to obtain adequate funds for their opera tions."

The Reigning Craze

Radio has taken the country literally by the cars. Nothing like it has ever been known in the history of the world. Re ceiving sets are being placed in city homes, farm houses, business offices, theatres, on moving trains, even in limousines, to catch winged words and meandering music from the air, at the rate of a hundred thousand a month.

The Times always on the lookout for the interest of its large circle of readers, begins this week a radio department which will contain brief a rticles covering something of the history of radio, the me chanics of radio and the broad casting and utilization of radio

Here is an opportunity for the fans of Appomattox to keep up to date and obtain a good deal of practical information in the construction and operation of radio "sets."

Buckingham

"Thou madest me poor and keepest me so". While the land was too wet to plow; poor men and improvident men have been riding around trying to borrow money to pay debts that are pressing them. I saw quite a number of these men and one of them was carrying the deed to his land around with him to show that he had land and all were willing to encumber their homes to raise the ready cash they need. Men who are worth more than this class are borrowing from the government at a rate of 6 per cent for five years. I went to the trouble to investigate the cause of so many men being in debt and I found that they bought high priced goods on time thinking to pay for them with the proceeds of crops sold at high prices, but when the slump in prices of farm products came they could not realize on what they had pro duced. Some of these men then took to the coal mines and then the strike came on and they had a hard time getting money enough to pay their expenses to and from the mines. This is one picture, but I see thrifty men who made good tobacco and got good prices for it, they are now lending money, buying government bonds, paying $80 for $100 bonds paying cash for fertilizer, hir ing the poor men at 75c and $1 a day, they have fine growing crops and are making money.

An old man named Cabell Womack, died at the poor house last week, it is said that he had no near relatives living, but that he came of a good family of people. Mr. Womack was drawing a pension as a Confederate soldier at the time of his death.

If the season for saving hay is a dry one there will be a bumper crop saved as there never was a finer season on growing grasses and alfalfa is now nearly tall enough to cut. Farmers who got their corn planted before the long rainy spell are fortunate.

Her Money Was Gone!

An old woman who lived alone had kept nearly $2,000 00 in currency around her house for years. She was afraid of banks.

Last fall she became seriously ill, and——

No, she didn't die But when she went to look for the cash it was gone! Fortunately some honest friends had found it while she was unconscious and had deposited it to her credit in a bank.

This woman has now decided that after all the bank is the safest place, and, besides, her money is not idle any longer. It is now earning 4 per cent for its owner.

Let us put your money to work for you.

THE BEGINNING OF A BANK-NOTE

Little Marcia's baby dress though made of the finest linen was ultimately worn threadbare. One day it landed in the rag bag and was sold to the junk dealer. When the rag sorter touched the discarded garment he detected in a flash the fine quality of the flax and set it aside for a journey to the Bureau of Engraving and Printing at Washington. Eventually it became legal tender—a bank-note. Just how is told in one of the beautiful booklets about Our Government which we are sending each month to those interested.

Just send us your name and address and you will receive a copy of every issue of the series without charge.
